SPECIALIST GROWERS AND ORIGINATORS OF FINE HEMEROCALLIS

A LETTER FROM FLORALWOOD TO YOU

Dear Friend:

In the closing of this, our first year in selling daylilies to you, we wish to thank you so very much for the wonderful response given us and to express our gratitude for the many fine letters from you praising our plants. Suffice to say, we have not received one word of complaint from any source.

We are not large growers, but we are a flower minded family and we all take an active interest in our gardening efforts. We do not have a large acreage and all of the work is carried on by the family from growing to shipping and this assures you of fine stock that will grow for you and bloom the first year.

We are now propagating over five hundred varieties and we shall continue to specialize in *hemerocallis* only. We are continually weeding out the un-desirable varieties that should never have been introduced and this assures you that every item we list has good garden value. Each year we are adding all of the new items that have proven worthwhile so that you may be able to purchase the latest things through us just as soon as we have propagated them sufficiently to list. We feel that our prices are on a parity or lower than any grower and our listing makes it both a retail and wholesale listing.

We have a fine group of seedlings and next year we intend to introduce some of them and you may rest assured that they shall be improvements in the daylily world. These introductions shall be sold with the understanding that if they do not measure up to our description, your money will be refunded, and, they will be introduced at prices that the average collector can afford.

Again, we wish to thank you for your past patronage and promise to give you even better service in the future and the plants that we ship shall be the kind that we would be pleased to receive ourselves.

We also wish to thank the Iris Test Gardens of Yakima, who so kindly gave us such a fine announcement in their catalog this past year.

Very Cordially,

FLORALWOOD GARDENS

Joe, Arlene, Tommy and Mike

. . . AND MAY WE SUGGEST:

If you grow daylilies you should belong to the Hemerocallis Society. Their beautiful yearbook and quarterlies and use of the loan library are well worth the annual dues of \$3.00. Write to us or to Mr. Geo. R. Lenington, Sec., Box 139, Kansas City, Mo.

Color Slides of daylilies, for your club's entertainment. Write Dr. Philip Corliss, Box 68, Somerton, Ariz. Dr. Corliss has just recently released his new book on daylilies: 'Hemerocallis: The Perennial Supreme'.
